

Marion City Design Review Board

Sign Permit

Staff Report

October 26, 2021

Applicant: Tim Chambers dba Marion Brewing Company
Location: 151 S. Main St.
Request: Install 42" x 18" projecting sign with the name & logo on front of building.

Comment:

The two-story building is divided in to two storefronts: Marion Brewing Company is on the north side at 151 S. Main St. which has a brick & wood panel façade with a wall mounted sign in the unused window space. The Way We Were Antiques is on the southern half at 149 S. Main St. which has traditional storefront display windows and an awning that projects over the sidewalk. Ideally it would be desirable to have 151's storefront restored to a more traditional look.

The proposed sign will project over the sidewalk. The flat 6 mm white Dibond sign with printed vinyl lettering saying Marion Brewing Company with the logo in black. The two-sided sign will be 42" wide by 18" high and attach to the wooden portion of the first floor via a square tube steel bracket and cables to stabilize it above the sign. The sign itself would attach to hooks hanging below the steel bracket. (See attached photo.

Staff Recommendation:

Approve the projecting sign because it is minimal in size and will make the location more visible to pedestrians and vehicles passing the Main and Church intersection.
